

# Questionnaire for retrospective study about OSA in dogs

This study aims to identify the initial diagnosis, diagnose the OS in dogs, its treatment and the following survival. Please complete the following fields as completely as possible. No personal data will be collected, participation is anonymous. This study is carried out worldwide, so we only need your country code and the answer to the question whether you as a veterinary or dog owner participate in it. Thank you for your voluntary participation.

Country	<input type="text"/>	
Are You a...	<input type="checkbox"/>	veterinary
	<input type="checkbox"/>	dog owner
Dog breed, age and gender	<input type="text"/>	
First diagnosis	<input type="text"/>	
Date of first diagnosis	<input type="text"/>	
When was the diagnosis OSTEOSARCOMA made ?	<input type="text"/>	
Which method was used to diagnose OSTEO- SARCOMA ? (multiple answers possible)	<input type="checkbox"/>	X-Ray
	<input type="checkbox"/>	Computertomography CT
	<input type="checkbox"/>	MR imaging
	<input type="checkbox"/>	Sonography Ultrasound
	<input type="checkbox"/>	Blood test
	<input type="checkbox"/>	Biopsy
	<input type="checkbox"/>	Other method
If anesthetic (general anesthesia) was necessary for the examination, were there complications? Which ?	<input type="text"/>	
When was the cancer treatment started?	<input type="text"/>	
How was the OSTEO- SARCOMA handled?	<input type="checkbox"/>	Curative
	<input type="checkbox"/>	Palliative
Which method was used to treat the OSTEOSARCOMA ? (multiple answers possible)	<input type="checkbox"/>	Amputation
	<input type="checkbox"/>	Operation
	<input type="checkbox"/>	Chemotherapy
	<input type="checkbox"/>	Radiation
	<input type="checkbox"/>	Cyber-Knife
	<input type="checkbox"/>	Painkiller
	<input type="checkbox"/>	Homeopathy
	<input type="checkbox"/>	Other method
The dog lived on until...	<input type="text"/>	
The dog died...	<input type="checkbox"/>	on the consequences of OSA
	<input type="checkbox"/>	on other cause
Message (for all other important facts)	<input type="text"/>
